### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Claims 1-21 are allowed as the prior art does not teach or suggest the applicant's invention. Regarding claims 1-7 and 14-21, the reasons for allowance were given the previous office action. Regarding claims 8-13, the distinguishing elements of the claim teach a memory storing predetermined ideal VCM plant response parameters representing a response of an ideal VCM plant for which the servo control module is designed to interact, a measuring module operable to measure an actual VCM plant response representing the response of the actual VCM plant to a control signal, and a realizing module operable to generate an equalization filter for filtering one or more resonance models that are in the actual VCM plant response but are not in the ideal VCM plant response.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
